#### MONEY, STOCKS AND BONDS.

"Bears" Again in Complete Control-Atchison Reaches the Lowest Point in History. NEW YORK, Oct. 10 .- Money on call was easy, ranging from 512 to 6 per cent., the last loan being made at 6, closing offered at 6 per cent.

Prime mercantile paper 6@8 per cent. Sterling exchange quiet but firm, at \$4.8234 for sixty-day bills and \$4.8634 for demand.

The total sales of stocks to-day were 285,043 shares, including the following: Atchison, 61,383; Delaware, Lackawanna & Western, 3,085; Louisville & Nashville, 15,-300; Manhattan Consolidated, 3,685; Missouri Pacific, 11,725; Northwestern, 30,170; Northern Pacific, 3,700; Northern Pacific preferred, 8,415; New England, 51,170; Oregon Transcontinental, 13,125; Reading, 17,-

300; St. Paul, 16,800; Union Pacific, 3,005. The improvement in the condition of the money market made further progress today, and the restoration of passenger rates to Denver, with the continued encouraging traffic returns, gave the stock market a bullish tone at the opening of business today. The fluctuations, however, are still controlled to a large extent by the professionals, who are at present on the short side of the account, and the history of the day's transactions is chiefly comprised in day's transactions is chiefly comprised in the efforts of the "bears" to break prices by determined attacks upon a few stocks. Atchison and New England were more con-Atchison and New England were more conspicuous among these, and pressure to sell the former found little demand and absolutely no support whatever. A rumor that the reorganization plan was meeting with unexpected opposition was circulated, but could not be confirmed. There were points out to sell New England before the opening, and it was said that a large block of the stock was to be sold. The two stocks mentioned furnished nearly half of the total business done, and they overshadowed the entire list. The "bears" gave considerable attention to Cotton Oil also, and reports of a serious disturbance in the trust were out, serious disturbance in the trust were out, serious disturbance in the trust were out, though it was believed that the selling was for the purpose of breaking the price to cover "shorts" up on. Sugar weakened in sympathy with Cotton Oil, and Missouri Pacific in sympathy with Atchison, though the impression upon neither was of special importance. The general list was affected to a limited extent by the weakness in the leaders, but the fluctuations, as well as the business done, were confined within narrow limits, and the declines established outside of the stocks mentioned and a few speciallimits, and the declines established outside of the stocks mentioned and a few specialties were not worthy of mention. The strong feature of the day was the Northern Pacific group of stocks, which were advanced on what appeared like inside buying, and which was accompanied by a story that Mr. Villard had obtained the necessary proportion of the stock to carry out his scheme. Oregon Transcontinental was specially strong, and shot up 3 per cent. from its lowest figure, but reacted and lost a good portion of the improvement. The Northern Pacifics were more quiet in their movements. Louisville & Nashville was strong, but the tendency to advance was checked by the persistent selling of the leading shares, and St. Paul sold off slightly on the decrease in the earnings for the first week in October. Manings for the first week in October. Manhattan was strong, on the report of a decision in favor of the company, and Chattanooga and San Francisco moved up. The Chesapeake & Ohio stocks, and the Wiscousin Central, were also conspicuous among the low-priced shares for strength. The opening was made at advances extending to 3s per cent., and after further slight im. provement the whole market gave way and drooped throughout the forenoon, while Atchison reached the lowest price in its history, and New England its lowest price since June. The spurt in the Northern Pacifics helped to rally the list in the after-

night, and Cotton Oil is down 21s; Sugar, 15s; New England, 112; Atchison, 13s; Missouri Pacific, 11s, and Rock Island, 1 per cent., while Oregon Transcontinental is up 15s and Manhattan 1 per cent. Railroad bonds showed a little more animation, to-day, though the increased business was entirely due to the animation in the Chesapeake & Ohio fives, which furnished \$140,000 out of the total day's business. The tone was much better than during the past few days, and the market even showed some strength in spots during the latter portion of the day. There were a few important changes, and among the advances were: St. Paul, LaCrosse sevens, 1, to 114; Denver & Rio Grande Western certificates, 1, to 95; Detroit, Mackinac & Marquette land grants, 114, to 3714.

The Post, in its financial article, says: The advance in prices from about noon on Tuesday, to near the close yesterday, and again this forenoon, was caused chiefly by the covering of the "shorts," which were put out in the raid made upon the granger stocks on Monday and Tuesday. This recovery brought the general range of prices back nearly to where it was on Monday morning, but not quite. The whole movement of the market, from Monday morning to noon to-day, indicates that the trading has been almost entirely by professional speculators, who take one side of the market for a few days, and then change the market for a few days, and then change over to the other. But aside from this see-saw movement there are some stocks that have a stronger tendency in one direction or another. Union Pacific, Louisville & Nashville, Western Union, Manhattan, Lake Shore, Northern Pacific preferred, and Oregon Transcontinental were scarcely affected by the depression in prices on Tuesday, and since then have given evidence of one kind or another of a tendency to go higher, while, on the other hand, Atchison and New England touched lower prices this forenoon than they did in the general depression of vesterday. lower prices this forenoon than they did in the general depression of yesterday. There appears to be an attempt to bull Reading on the ground that stock must be held for three months before the date of the annual meeting, which will be held on Jan. 13. This is an error, as, according to the plan of reorganization, it is stated in Section 5, page 12, that "John Lowber Welsh, J. Pierpont Morgan, Henry Lewis. George F. Baer and Robert H. Sayre shall be the five voting trustees, who shall vote the stock of the reorganized company or the stock of the reorganized company or companies depositing under the plan, to whom such power shall be confided for five years after reorganization. The only news to-day having a bearing on railroad stocks was in regard to the restoration of rates between Chicago and the Missouri river, but it had no immediate effect on the restoration.

noon, but the improvement was only partial and did not hold to the end. The

market closed fairly active and heavy at something under the opening figures. The majority of stocks are materially lower to-

but it had no immediate effect on the prices of the granger stocks, which closed generally lower than yesterday.

Government bonds were dull and steady.

State bonds were entirely neglected.

TRADING AT CHICAGO.

The Ups and Downs of the Market, with the Range in Prices of Leading Articles. CHICAGO, Oct. 10 .- Trading in wheat was very extensive to-day, and a decidedly

bullish feeling prevailed. Yesterday's big buying by prominent local "shorts" started the market, and to-day's influences caused a further sharp appreciation in values. A large trader sold quite freely. The view taken by some of the traders is that the "short" interest is accountable for the sudden turn, while others predict an era of active speculation and still higher prices. To-day's movement did not have the appearance of a strained market. The opening was \(^1\_4\alpha\)\_360 higher than yesterday's closing, ruled a trifle easier thereafter, prices receding about \(^1\_4\c,\) This movement was followed by a steady advance of \(^1\alpha\)\_18c, and the closing was \(^1\_4\c) higher for December, and \(^1\_4\c) her for May than yesterday. A rumor that the government crop report would show a further shortage of some \(^20\)\_000,000 bushels no doubt was one of the principal influences which gave impetus to the advance of to-day. The liberal export clearances had a decidedly strengthening effect. A good trade was reported in corn, and the feeling was firm, and trading was at higher prices. The better tone and advance was attributed to covering by December and May "shorts," as also the stronger feeling in wheat. The volume of business was quite large, especially in May, which ruled firm on good buying by a large local speculator, and one or two commission houses. Offerings of the near futures were quite light at times, but there was some changing of October to May at \(^2\)3c higher than yesterday's closing prices, and under a good local demand advanced \(^1\alpha\)3c higher than yesterday. There was less doing in oats to-day, but a stronger feeling was developed and prices reacted \(^1\alpha\)3c higher than yesterday. There was less doing in oats to-day, but a stronger feeling was developed and prices reacted \(^1\alpha\)3c higher than yesterday. There was less doing in oats to-day, but a stronger feeling was developed and prices reacted \(^1\alpha\)3c higher than yesterday. There was less doing in oats to-day, but a bullish feeling prevailed. Yesterday's big buying by prominent local "shorts" covered a large line. The cash end of the market shared in the strength shown by May. Provision traders obtained a little rest, to-day, from the October pork deal. A few lots of new pork, tendered on October contracts, were refused to-day and sold out at auction at \$10.47\(^12\overline{matheref{math November short ribs were unchanged. For January, the favorite month, pork sold at \$9.32\(^12\alpha\)9.45, lard 5.90\(^12\alpha\)5.97\(^12\)c, and short ribs at 4.75\(^12\)4.77\(^12\)c. Cash buyers made rather small purchases. Shipping and export orders were under an average. The leading futures ranged as follows: Options. | Open'g. | Highest. | Lowest. | Closing.

William Wallace, the principal of the much-talked-of "October pork deal," has taken the fight from the county to the United States court. To-day he filed a bill in the clerk's office of the United States Circuit Court against William G. Severins, president of the Board of Trade, and against the directors of the board, the committee on provision inspection, and Swift & Co. In the bill Wallace reiterates that the defendants are endeavoring to force on him "green" pork. He refuses to accept because of the short time of packing, and prays that the defendants may be cited to show cause why he should be compelled to accept the deal.

INDIANAPOLIS MARKETS. Trade a Little Off-The Weather Too Mile for This Season of the Year.

INDIANAPOLIS, Oct. 10. In most departments trade the last day or two has been rather quiet, the chief cause of which is doubtless the mild character of the weather, it not being cool enough to create a brisk demand for fall goods. Dry goods men, however, to-day, had a fair trade, and steady prices prevail on most lines of goods. Grocers speak of trade as being rather quiet this week, and the same is true with the produce men. In all lines of produce the supply is more liberal, and, as a result, eggs, poultry and butter are weak at quotations, and the same remark will apply to apples and vegetables generally. The iron and hardware dealers are now putting in their time largely in marking up goods to meet the advance in the manufacturing centers on articles made from iron and steel. Bar iron advanced 10 cents to-day, iron nails 35 cents a keg and steel nails 15 cents per keg, and higher prices are indicated. Probably horse-shoes will advance in the next day or two. Trade in both lines is active. Millers report an improving demand for flour, and some indications of better prices. Other markets are much in the same position as for several. days past.

The Indianapolis Market Report shows the receipis of grain to-day to have been 19,600 bushels. The market is stronger in sympathy with other markets; buyers, however, are not very

Corn—Receipts posted to-day, 3,600 bushels; yesterday, 12,000 bushels. The market shows but little change; white grades are quoted up, but the demand is small at quotations; shippers doing little. Their bids are on the basis of 30 \$\tilde{\pi}30^{\frac{1}{2}}c\$ for mixed, and 30 \$\frac{1}{2}c\$ for high mixed.

a term of two years, commencing on the 1st day of October, 1889.

At the date and hour above stated, in the office of the Secretary of State, the scaled proposals will be opened and as soon thereafter as the bids can be properly examined and classified the contract will be awarded to the lowest and best bidder, according to law, the board, however, reserving the right to reject any or all bids.

The work will be divided into three classes, as specified by law, as follows:

The first class shall comprise the laws, journals, reports of officers and public institutions, and all book and pamphlet work, to be printed on book paper.

The second class shall comprise all legislative bills, commissions, letter-heads, circulars, blanks and other work usually executed on writing paper, and all articles of stationery. commissions, letter-heads, circulars, blanks and other work usually executed on writing paper, and all articles of stationery.

The third class shall comprise the folding, stitching, covering and binding, and all work belonging to the binding business.

Contracts shall also include the printing and blocking of all election tickets provided by the general election law passed at the fifty-sixth session of the General Assembly of the State of Indians, and also the preparation of all stamps provided by said law for the marking of ballots.

Parties making bids will be required to accompany their scaled proposals with samples of every description of paper and material named in said proposals, giving the name and weight of same or otherwise designating means for making comparisons and estimating values. The contractor will be required to give bond in the sum of \$25,000, with approved security, for the faithful performance of a work which may be awarded to him, in accordance with the specifications hereinafter named, and that in every instance the paper and material furnished shall be in color and quality the same as the sample furnished.

The contractor shall manuals an cince in the city of Indianapolis for the transaction of all business under said contract, and all-work under said contract shall be performed within the State of Indiana.

Any bidder who shall be awarded said contract shall not assign the same nor any portion thereof without the written consent of the Board of Public Printing.

The contract will be let as a whole to the lowest The contract will be let as a whole to the lowest bidder in the aggregate, no division of classes being The basis furnished is solely for the information of bidders and to secure uniformity of bids, but in awarding the contract the Board reserves the right to bids on the basis of the total amount consumed during the last contract year, which amount may be ascertained by application to Charles A. The Most Complete Newspaper

in all Departments in the

State of Indiana.

No newspaper in the West is more

widely or more favorably known than

the Indianapolis Journal. By the

display of enterprise and strict attention

to the wants of the reading public, dur-

ing the great campaign of 1888, it has

taken a leading position among the most

prominent journals of the country, and

is certainly among the best. Among the

newspapers of the State it is pre-emi-

nently the best, and Indiana readers can

nowhere else find what they want in the way of State and local news. It circu-

lates largely in every county in Indiana,

and has correspondents in every town

and village of importance. Its market

reports are prepared with the greatest

care possible, and no pains or expense

are spared to make them accurate and absolutely reliable. It is the only news-

paper in the State owning and publishing all the news furnished by the two

great press associations (the Western Associated Press and the United Press),

in addition to which it furnishes an

abundance of special service from all

the principal cities of the country. It

has been, and will in future be, the aim

or particular. The paper challenges

give the news of the day without fear or Owing to the prominence of Indiana in the national administration, the Jour-NAL gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the

next four years. In addition to its new features, the Journal regales its readers with the productions of some of the best known llterary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.
